Newsletter Sponsorship

Sponsors of our newsletters may place up to 600 characters of their promotional text and a 120x30 graphic at the top of each newsletter that is released. This opportunity is available on ISAserver.org, MExchange.org, MSTerminalServices.org, WindowSecurity.com and WindowsNetworking.com with each site having its own opt-in newsletter subscriber base. Only one sponsor per newsletter is permitted to ensure that the advertisement is prominently displayed thereby maximizing the value of this spot.

Category Sponsorship

By sponsoring software categories, your 728x90 leaderboard banner would be placed exclusively at the top of that section and your product would head the list of software in that section as the 'Featured Product'. Attention is further drawn to the 'Featured Product' by use of the 'Featured Product Logo' that appears alongside your product title. On average, the Featured Product enjoys 3-4 times as many clicks as normal product listings do. This opportunity allows you to reach the most highly targeted audience possible.
